

Products & Parts Catalogue 2025-26

Cronex

The source of **Plumbing, Hardware & Electrical**

Welcome to our Catalogue 2025

Here at **Cronex**, we are proud to welcome you to the latest release of the Cronex Product Catalogue, which has undergone a thorough update to showcase our new and improved product ranges. We are confident that the revised presentation and layout, will prove to be a valuable enhancement, making it more user-friendly.

As a proud member of the **Thomas Dudley** family, we constantly invest in our people, plant, and processes. Our dedication lies in the continuous development, manufacturing, and refinement of both existing and new products, all of which you'll find showcased in this catalogue.

Being a dedicated 'Export Business,' we prioritize the quality of our products and our customer service levels. Our team takes great pride in being helpful, efficient, and resourceful, ensuring that our customers' needs are met throughout the entire order process. From understanding your requirements, to the physical act of shipping goods and the after-sales service we are known for. We believe in forging strong and enduring relationships that contribute to the growth and success of our customers' businesses.

Customers who choose Cronex' plumbing, hardware, and electrical products, can do so with the assurance that they are partnering with a reliable and knowledgeable British-based supplier with

over **40 years** of industry experience. The addition of the Thomas Dudley group has now added a further **100+ years'** experience to that. With the support of our in-house sales office, overseas agents, and technical specialists, we proactively address any issues that may arise, ensuring swift and efficient resolution.

Furthermore, we have developed extensive experience in numerous export markets, now spanning over 70 countries in 6 continents. We haven't given up on Antarctica just yet! This means that our understanding of both regional and operational processes ensures the safe and cost-effective delivery of goods worldwide.

In this catalogue, we have strived to encompass nearly every product we supply and manufacture. However, we also collaborate closely with several other UK hardware and electrical brands, enabling us to expand our product portfolio even further. If there's a specific item you cannot find, please don't hesitate to reach out to us for assistance.

We would like to take this opportunity once again to express our gratitude for your continued support. At Cronex, we remain committed to providing the best products and services to meet your needs and contribute to the success of your ventures.

Family business

Thomas Dudley Brands

We combine the products and expertise across our five brands: Cronex, Dudley, Epson, Beta and Resan, to bring you a one-stop solution for your plumbing, hardware and electrical requirements. Each of our brands have been carefully designed to include a specific range of products allowing you to find quickly and easily what you are looking for.

- 40 years worldwide export experience
- One convenient, customer driven supplier
- Access to the Cronex, Dudley, Epson, Beta & Resan brands
- Over 6,000 innovative products
- Unrivalled UK stock holding and service
- Advanced warehousing and logistics
- Sales and Marketing support
- Logistic and operational advice, guidance, and support
- On site UKAS accredited and WRAS recognised test facility

Part Codes

You will notice throughout the catalogue that we are showing both old and new codes, the old codes will be the code you recognise and are used to seeing and the new code is what we are moving all products over to since becoming part of the Thomas Dudley family. To make the transition easier we thought it best to show both until everyone is used to seeing the new codes.

Example:

Old Code: CXP 5026

New Code: 366733

Extensive range, with over 6,000 products in stock

Worldwide Distribution

Cronex

Cronex is our export range, distributing the best plumbing, hardware and electrical supplies worldwide.

Dudley

Dudley manufactures superior quality plumbing products in our dedicated and ultra-modern facilities here in the UK.

Epson

Quality doesn't have to cost the earth. Epson supplies cost-effective solutions for a wealth of reliable plumbing parts.

Beta

Our plumbing brassware range, suitable for an array of plumbing jobs with excellence at the heart of each part.

Resan

We manufacture anti-ligature sanitaryware products for many market sectors.

History

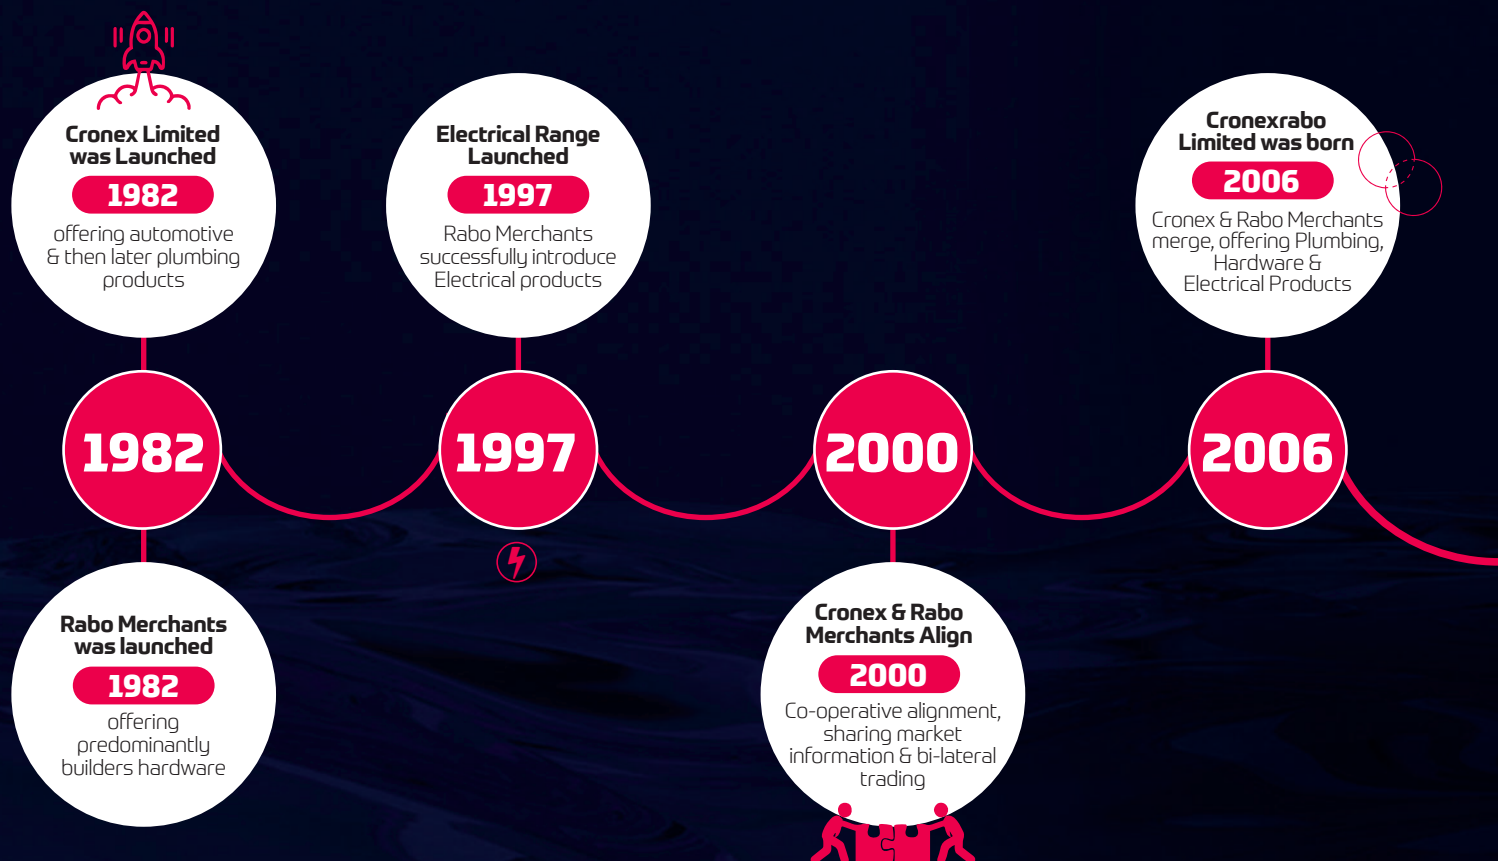

With a pedigree that stretches back over **40 years**, Cronex and the team have become known for their ability to manufacture and source quality products for the worldwide market. Since their humble beginnings where they offered only automotive spares and a limited hardware range, they have branched out and succeeded in other areas, such as plumbing spares and electrical accessories to become a dominant force in the sectors in which they operate.

Cronex was founded during the early 1980's and was originally located in the 'Heart of England' in the picturesque setting of the English Cotswolds region. Initially, its primary purpose was the export of automotive parts to the Caribbean. However, this soon gravitated towards supplying the retail plumbing sector.

During the same period, and little further north in the West Midlands, Rabo Merchants was launched. They initially offered Merchanting and Confirming services, eventually evolving into the direct export of predominantly builder's hardware goods. In 1997 Rabo Merchants successfully introduced Electrical products into their core range offering, an effect which dramatically grew its business. Meanwhile, the Cronex brand was becoming a well-established name in its own right, with their plumbing and sanitary lines steadily increasing and customer relationships being built on firm foundations.

The turn of the millennium brought the two companies closer together to form a co-operative trading alignment, sharing market intelligence and bi-lateral trading initiatives to the mutual benefit and success of both parties. In 2006 CronexRabo Limited was born. After formally merging the two businesses, CronexRabo was able to offer an unprecedented selection of Plumbing, Hardware and Electrical products accompanied by a unified wealth of knowledge, expertise and experience in the export sector.

During the next 10 years, CronexRabo was able to build upon its reputation of supplying premium quality products ably backed by a strong sales and customer service team. They launched initiatives such as the '**Carl & Gilbert**'

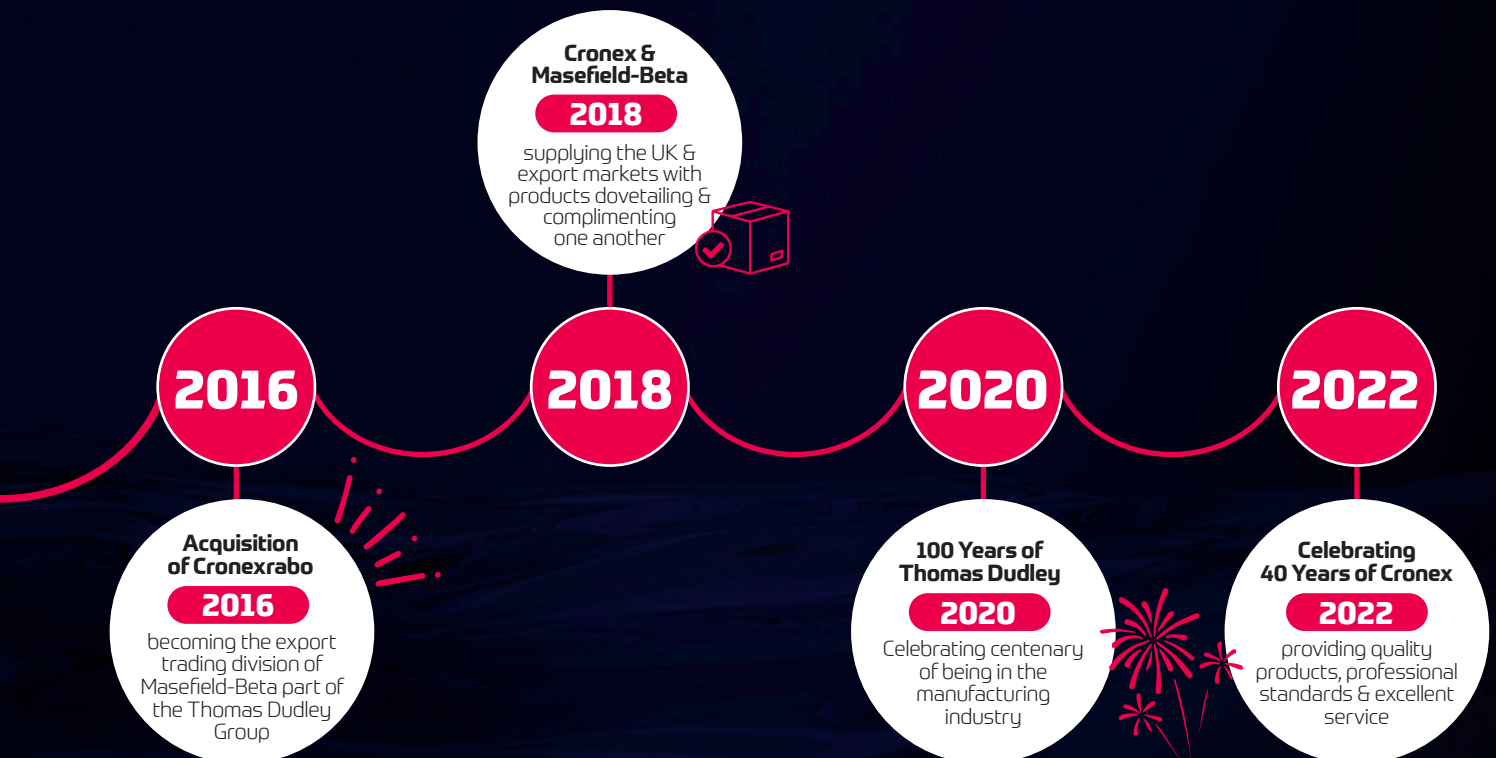

Electrical Accessories range, '**Curved Air**' fans and '**Argent**' lighting and fittings, whilst still maximising sales in product areas such as Pan Connectors, Taps, Cistern Fittings, Brassware, Plumbing Spares and Ironmongery. Their reputation and reliability to supply these products in the **Caribbean** and **West African** markets enabled them to establish a strong and dedicated customer base which still proudly remains to this day.

The year 2016 heralded the acquisition of CronexRabo by the **Thomas Dudley Group**. CronexRabo's Cotswold site was closed and relocated to the Tipton area in the West Midlands, with the business effectively becoming the export trading division of Masefield-Beta Limited, (another member of the Thomas Dudley Group). Prior to this transition, Masefield-Beta and CronexRabo already enjoyed a long-standing trading relationship, and the merger became a natural and positive step forward for both businesses. Masefield-Beta offered a strong and committed U.K. manufacturing base capable of producing and delivering a wide range of plumbing spares to complement and enhance the Cronex range.

Thomas Dudley celebrated their **centenary year** of trading by merging with Masefield-Beta in the January of 2020 under the trading name and banner of **Thomas Dudley Plumbing**. Despite the global impacts of COVID, Cronex continued, within **Thomas Dudley**, its expansion of both products and territories. Returning to brand prominence, the construction materials provided by Cronex are now underpinned by a wider and more specialist range of commercial plumbing and sanitary ware products that the **Dudley, Epson and Beta** brands offer.

Clearer brand identification and an evolution of sustainable packaging improvements can already be seen, with a roadmap of products and services in development.

Whilst Cronex has seen many changes over the past 40 years, the original core values remain the same; to provide quality products, professional standards and excellent service at all times.

Thomas Dudley Group

We pride ourselves on our values of **partnership**, **teamwork** and **family**, employing just under 500 people in the West Midlands, the Thomas Dudley Group brings together a portfolio of integrated engineering businesses. These are underpinned by a commitment to continually investing in our people and cutting edge technology.

Additionally they are passionate about manufacturing in the UK and providing customers with quality assured environmentally responsible source of supply.

The Thomas Dudley Group is dedicated to providing unrivalled solutions supported by exceptional service. We are proud to remain a family owned organisation that is driven by the same values as when we started our business in 1920. As a result, we are able to forge long term relationships with each and every customer.

DID YOU KNOW?

British manufacturing

We operate our own manufacturing centre in Dudley, West Midlands. We are proud to be a British Manufacturer.

We deliver

We deliver worldwide.

Providing our customers with the relevant freight services and support to ensure the safe and efficient arrival of products to their destination.

Over 6,000 product lines

We stock over 6,000 product lines providing a one-stop-shop for all plumbing related products.

Thomas Dudley Plumbing

Merging the businesses Thomas Dudley Ltd and Masefield Beta we created Thomas Dudley Plumbing. Combining plumbing products and expertise across five brands, **Dudley, Epson, Beta, Cronex** and **Resan**, to being a one stop solution for all plumbing requirements.

CRONEX

Cronex, part of Thomas Dudley, offers a selection of plumbing, Hardware and Electrical products that enhance and compliment Thomas Dudley's product range in both the UK and export market.

WATERFIT

Waterfit Ltd is a major manufacturer of gunmetal fittings and water meter manifolds to the UK water industry as well as being the manufacturer of choice in many international markets around the world.

THOMAS DUDLEY FOUNDRY

Thomas Dudley Foundry Ltd manufactures the UK's largest range of construction, utility and plumbing castings. They have developed the world's most flexible engineering foundry that designs and manufactures grey iron, SG iron, ADI and SiMo castings for customers across the UK and overseas.

MDL

MDL believes in enhancing the human interaction with every product and specialises in zinc diecasting and the manufacturing of components for the home, medical, leisure and general engineering sectors where a variety of high specification finishes are required.

RUGBY PLASTICS

Rugby Plastics designs, develops and delivers injection moulded plastic components for countless applications around the world.

07 Wastes & Traps // Basin

FEATURED

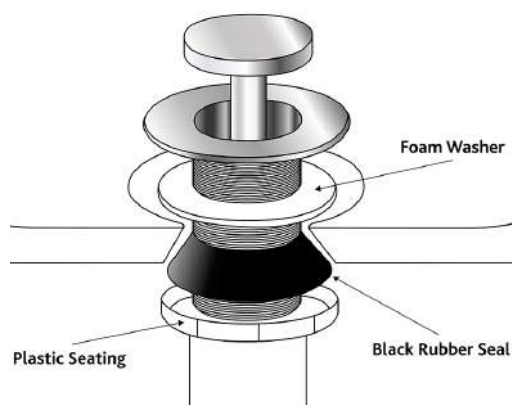

Basin Waste Seal Kit

WASTES & TRAPS // BASIN

Basin Mate Seal Kit - A handy way of sealing your old or new basin waste

- 1 1/4" Seal Kit
- Quick and Easy to Fit
- Saves Time and Money
- No need for Paint, Putty or Mastic

Item	Old Code	New Code
Basin Waste Seal Kit	CXP 5340	368148

Fitting instructions

1. Fit foam washer as shown & push black rubber seal firmly into basin aperture
2. Fit plastic seating firmly over rubber seal ensuring even fit
3. Tighten nut to seal

The 3 part kit, includes foam washer, black rubber seal and plastic seating and is suitable for 1.1/4" basin wastes

Say goodbye to leaky wastes! Installing basin wastes has never been so easy! Our Basin Mate seal kit is a handy way of sealing your old or new basin waste.

The kit is manufactured from high quality materials and includes a sealing ring, washer and seating – everything you need for a quick and easy installation.

There is no need for paint, putty or mastic!

- A handy way of sealing your old or new basin waste.
- There is no need for paint, putty or mastic!

Don't just take our word for it...

"Brilliant bit of kit! Not expensive & just does the job after trying most things to seal a slotted waste in bathroom."

i "Easy to use & does a great job. No problem sealing the basin waste & no need to use sealant or mastic. Well worth the price. I would always use one when fitting a basin waste."

"Fitted new basin in bathroom and no matter what I did I could not get it to seal up correctly & it kept leaking. Bought this seal kit & it fixed the issue straight away."

"Brilliant result, no drips & no messy putty or sealant. Would recommend."

Cistern / Tank Fittings

Offering well known and trusted British manufactured products for various cisterns and tanks, with a focus on reliability and longevity.

Replacing a damaged fitting is often far more cost effective than replacing the whole toilet and we pride ourselves in being able to equip you with the products and knowledge to enable you to do this.

In this section you will find cistern and tank fittings which can increase your toilets life span, improve efficiency, along with reducing water consumption and therefore minimizing your water bills.

Syphons, Flushing Valves & Accessories 01

FEATURED

SIMPLE EASY FLUSH ADJUSTMENT

Rectangular Syphon

CISTERN/TANK FITTINGS // SYPHONS, FLUSH VALVES & ACCESSORIES

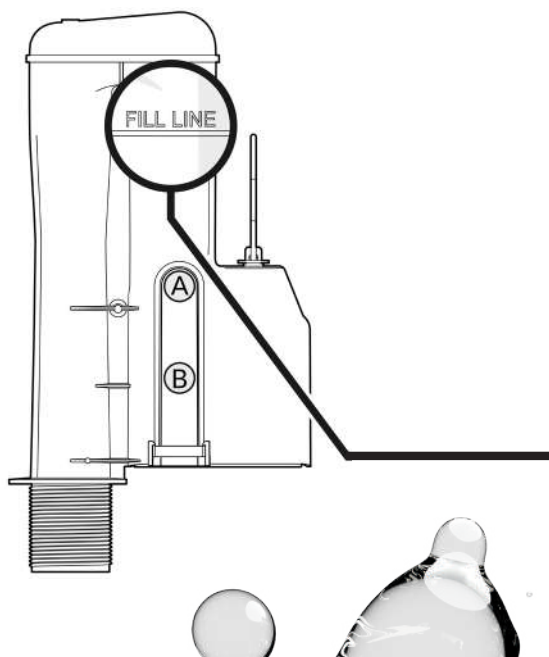

Cronex British made syphons are available in both 8" and 9½" height options and will fit most lever operated cisterns.

Supplied with a simple and convenient solution to convert to a 6ltr, 7ltr or 9ltr flush to ensure water saving options.

- British made
- Strong durable material
- Cronex branded
- Advanced water saving control for 6,7 and 9 litre flush options
- For use with external overflow
- Spare diaphragm available
- Pack qty 20

Item	Old Code	New Code
Rectangular Syphon [9½"]	CXP 5069	335552
Rectangular Syphon [8"]	CXP 5066	335551
Spare Diaphragm [5" Oval]* [Pack of 10]		371040

*Enquire/see page 47 for older model of diaphragm

IMPORTANT 6 litre flushing should only be used with WC pans designed for 6 litre flush volume. For non Cronex cisterns the below should be used as a guide only.

A For a **6L** flush, remove only flush plug **A**

B For a **7L** flush, remove only flush plug **B**

C For a **9L** flush, leave flush plugs in place

i Ensure the cistern does not fill to a level which exceeds the fill line marked on the syphon

01 Syphons, Flushing Valves & Accessories

DUDLEY TURBO EDGE® ADJUSTABLE SYPHON

CISTERN/TANK FITTINGS // SYPHONS, FLUSH VALVES & ACCESSORIES

The Turbo Edge® is the world's most compact syphon, guaranteed to fit more places than any others

- 6/7/9 Litre volume adjustment guaranteeing optimum flush performance
- Fully captive yellow fixing pin does not need to be removed to install syphon, easing installation
- Can be set up for use as an Internal Overflow
- It has a 2-part design that enables the syphon body to be simply removed from the cistern leaving the white downleg in position. This feature enables the Turbo Edge® to be serviced in under 5 minutes without disconnecting water supply and dismantling cistern
- Retrofits ALL Dudley Downlegs Between 7.5" & 9.5" (Including Turbo 88, Turbo 44 & Turbo S1-11)
- The Turbo Edge® is the ONLY syphon you will ever need
- Fits all syphon flush ceramic & plastic WC cisterns
- Pack qty 20

Item	Code
Dudley Turbo Edge® Adjustable Syphon	370873

02 Ballvalves [Fill Valves]

WITH ITS UNIQUE DUEL FITTING ADAPTER THIS PRODUCT IS WIDELY USED & BUILT TO WITHSTAND YEARS OF FLUSHES

i Works with both US & UK style toilets

TOILET TANK FILL VALVE AND DIAPHRAGM CISTERN/TANK FITTINGS // BALLVALVES [FILL VALVES]

Our Toilet tank fill valve is used to control the release of water in the cistern and designed to fill or release a large volume of water when activated by flushing the toilet. The toilet fill valve then refills the tank & bowl to the correct water level after flushing.

- Dual fitting converts for ½" & ¾" connection
- Easy installation
- Silent operation
- Prevents backflow
- Bottom entry
- Fast refill
- Valve height & water height adjust for accurate fit
- Pack qty 25

Item	Old Code	New Code
Toilet Tank Fill Valve	CXP 5324	366484
Replacement diaphragm (carded)	CXP 5324/D	366486
Replacement diaphragm (bulk)	CXP 5324/1	366485

i Complete with ¾" US adaptor

DUDLEY HYDROFLO DELAY FILL, PLASTIC TAIL FLOAT VALVE

CISTERN/TANK FITTINGS // BALLVALVES [FILL VALVES]

Designed for use as a replacement in most plastic & ceramic exposed & concealed cisterns.

- To BS1212 part 4
- Integrated quiet fill action
- Compact delay fill saves water by only opening once flushing is complete
- The unique float arm makes it impossible for the float to become detached
- Adjustable Height 8"-11.5"
- Key is provided for simple and safe removal of the filter
- ½" Plastic tail
- Pack qty 50

Item	Code
Dudley Hydroflo Delay Fill Plastic Tail - Side Inlet	375041
Dudley Hydroflo, Delay Fill - Telescopic Plastic Tail - Bottom Inlet	375040

DUDLEY HYDROFLO DELAY FILL, BRASS TAIL FLOAT VALVE

CISTERN/TANK FITTINGS // BALLVALVES [FILL VALVES]

Designed for use as a replacement in most plastic & ceramic exposed & concealed cisterns.

- To BS1212 part 4
- Integrated quiet fill action
- Compact delay fill saves water by only opening once flushing is complete
- The unique float arm makes it impossible for the float to become detached
- Telescopic adjustable Height 8" - 11.5"
- Key is provided for simple and safe removal of the filter
- ½" Brass tail
- Pack qty 50

Item	Code
Dudley Hydroflo Delay Fill, Brass Tail Float Valve - Side Inlet	324298
Dudley Hydroflo, Delay Fill - Telescopic Brass Tail - Bottom Inlet	324301

For further information on water saving please see page 54

Ballvalves [Fill Valves] 02

DUDLEY HYDROFLO FLOAT VALVES

CISTERN/TANK FITTINGS // BALLVALVES [FILL VALVES]

Designed for use as a replacement in most plastic & ceramic exposed & concealed cisterns.

- To BS1212 part 4
- Integrated quiet fill action
- Telescopic adjustable Height 8" - 11.5"
- ½" tail (available in both brass & plastic tail)
- Pack qty 25

Item	Code
Dudley Hydroflo, Plastic Tail - Side Inlet	313079

ANTI-SYPHON BALLCOCK

CISTERN/TANK FITTINGS // BALLVALVES [FILL VALVES]

- Single flush application
- Fits most 2 piece toilets
- Includes float rod, tube and float
- Durable plastic construction
- ½" plastic tail
- Height 250mm
- Pack qty 10

Item	Old Code	New Code
Anti-Syphon Ballcock	CXP 5323	366483

Water Saving

WATER SAVING

Thomas Dudley is committed to manufacturing bathroom and washroom solutions that help to save **WATER, ENERGY** and **MONEY**.

Our Innovative **Hydroflo Delay Fill Valve** prevents water from entering the cistern until it has emptied, meaning that the optimum amount of water that the pan requires is used. Without this delay, the water from the next fill flows out as part of the flush - **unnecessarily wasting water!**

Up to **0.5 litres** of water is wasted per flush with non-dealy fill valves, which is astonishing. If you think about commercial buildings such as **offices, hotels, shopping centres** etc then there will be thousands of people flushing daily so installing our delay fill technology could potentially **save thousands** of litres of water each year!

Saving water is very important to Thomas Dudley and we have supported the European Water Label scheme since its inception and have over 500 Dudley products registered under it. Along with the Hydroflo Delay Fill Valve we have concealed cisterns registered to the scheme which offer water-saving options of 6/4, 5/3 and 4/2.6 litre dualflush.

Our Turbo syphons and Niagara flushing valves are also registered and offer enhanced capital allowance incentives when businesses decide to fit them.

Hydroflo Delay Fill Valve Technology

- Designed for use as a replacement in most plastic and ceramic exposed and concealed cisterns
- Water saving delay fill action by only allowing a cistern to start refilling once flushing is complete
- Compact float will not catch on tight cistern installations where the inlet valve is close to the syphon or outlet valve, ensuring perfect operation
- Patented integrated quiet fill action
- Unique key is provided for simple and safe removal of the filter
- Two built in backflow prevention devices for one of the safest valves available
- WRAS approved
- Side, bottom and telescopic options available
- Brass tail helps prevent cross threading

Did You Know?

Syphons can't leak, and they can be made to work as dualflush, both assisting in saving a significant amount of water.

Urinals & Accessories **03**

Automatic Urinal
Syphons

CISTERN/TANK FITTINGS //URINALS &
ACCESSORIES

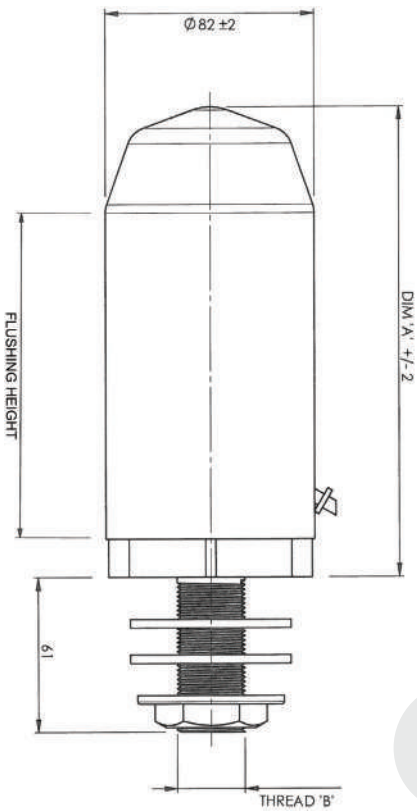

Designed to cater for the varied flushing requirements of large and small urinal W.C installations, all types conform to BS 1876.

Auto syphons are available in either of two outlet sizes: 25mm (1") and 32mm (1¼") BSPT.

All automatic syphons are supplied complete with two rubber washers and back nut. Each automatic syphon is fully tested before leaving the factory.

- UK Manufactured
- Plastic
- Requires no electricity supply
- Designed for various flushing requirements of large and small urinal W.C installations
- Includes washers and backnuts
- Easily controlled to minimise water usage

Item	Size / Flushing Height	Dim 'A'	Thread 'B'	Old Code	New Code

Flat Metal – Pushbutton	319473

Pipe Fittings

An essential range of products used to connect pipework together.

We offer several types of fittings to suit different types of hot and cold plumbing systems, manufactured to exacting British standards. Whether it be copper or brass fittings, we have a range of options for you to choose from in commonly used sizes.

You will also find the relevant consumables to enable you to complete the job or project easily and efficiently.

COMPRESSION – with minimal tools required, compression fittings are easy to fit and are widely used to connect both plastic and copper. Simply slide the nut onto the pipe, add the compression ring, insert the pipe into the fitting and tighten the nut. This will give a watertight seal as the nut compresses against the pipe.

END FEED – the clean finish and slimline appearance offers a discreet and neat look to pipework while also being useful in areas where there is limited space. The installation of these fittings is slightly more complex than compression and solder ring products and will require separate solder reel, flux and blowtorch.

SOLDER RING – built in solder allows easy fitting with the use of a blowtorch, resulting in a sturdy reliable joint. Particularly desirable where fittings are visible as solder is more attractive with a slimline design than compression.

Larger sizes available on request.

For copper pipe and fitting products please see pages 81-82

THREADED - Threaded fittings are sturdy and designed for permanent installation in mainly smaller pipework.

05 Consumables

Flux

FOR USE WITH COPPER PIPE

- Manufactured from high quality materials
- Supplied in a twist top tub
- Suitable for use with any copper pipe system
- LA-CO regular flux

Size	Old Code	New Code
2oz LA-CO Regular Flux	BBLLFLUX2	364208
4oz LA-CO Regular Flux	BBLLFLUX4	364209
1lb LA-CO Regular Flux	BBLLFLUX16	364207

Copper Pipe

COPPER

- Supplied in 3m lengths
- Supplied in bundles
- Available in 15mm and 22mm sizes
- Malleable
- Box qty 10

Size	Old Code	New Code
Copper Pipe - 15mm	CXP 5106	366320
Copper Pipe - 22mm	CXP 5107	366321

Pipe Cutter

CHROME

- Heavy duty die cast body
- Cuts tubing 1/8" - 1 1/4"
- Enable a clean cut whilst being faster and cleaner than using a hacksaw
- 3mm-22mm
- Adjustable for small bore tubing or where space is limited
- Two flare groove rollers and deburring reamer in adjusting knob

Size	Old Code	New Code
Pipe Cutter	CXP 5152	366390

THREAD

GAS

PTFE Tape

THREAD / GAS

- PTFE thread tape - sealing threaded fittings, making sure the product is watertight and no leakages will manifest
- Gas PTFE tape - sealing a thread on most gas fittings, making sure the product is gas-tight and no leakages will manifest
- Manufactured from high quality materials
- Supplied with a case to help keep longevity
- PTFE 12m roll 1/2"
- Pack qty 500

Size	Old Code	New Code
PTFE Tape	CXP 5281	366475
Gas PTFE Tape	BBLPTFEG	366452

LEADED

LEAD-FREE

Solder

LEADED / LEAD FREE

- Highly effective and designed to produce perfect joints, quickly and cleanly
- Lead-free solder has a higher melting point and creates a stronger bond than leaded. Lead based solder however is less brittle and is easier to use
- 500g

Size	Old Code	New Code
Solder - Leaded	BBLLS500	364211
Solder - Lead-Free	BBLLFS500	329881

Plumbing Brassware

Our brassware section forms an essential part of the Cronex product range, providing high quality durable valves and connectors, designed to regulate or control the flow of mains and tank water, in both residential and commercial buildings.

The flexibility, combined with variety of threads and length options on offer, make our flexi hoses a great solution when connecting taps, especially in confined spaces.

Supporting our brassware range, we also offer gas compliant hoses and accompanying sockets and lever ballvalves.

Y Adaptor	CXP 4107/B	366185

Y Adaptor PLASTIC

- Universal to fit both washing machine & dishwasher
- For twin hose coupling allowing 2 appliances to be used at the same time
- Pack qty 10

Item	Old Code	New Code
Y Adaptor	CXP 4107/P	363980

i Pressure reducing valves are used to reduce the water pressure to the desired or accepted limits. Our adjustable valves can be adjusted to a specific limit, depending on the pressure of the water supply. They are not used to turn the water on/off but are a useful form of controlling water. Overly high water pressure will easily damage both plumbing systems & household appliances over a period of time.

01 Tools

DRAIN RODS

UK manufactured polypropylene drain rods, joined by brass ferrules which are riveted to the polypropylene for maximum security.

COUPLINGS

Universal type with a course thread which simply screws together - rod rotation should always be in a clockwise direction to avoid parting.

SIZES

The standard length of our rods are 3ft however diameter varies:

- ¾" - Most popular and suitable for most work
- 7⁄8" - More popular with the professional user
- 1" - More rigid and suitable for heavier work and longer runs

'Drain Master' Set

DRAIN RODS

- Universal fitting
- Rods strapped together and polybagged
- Each set supplied with 10 Polypropylene Rods ¾" Dia x 3ft with Riveted Brass Ferrules

Item	Old Code	New Code

Flashband

ALUMINIUM SELF-ADHESIVE SEALING STRIP

Our Rabo-band is a popular and unique bright aluminium self-adhesive sealing strip with many uses and comes in a range of sizes up to 12".

Flashband has proved so effective & easy to use that anyone is now able to achieve a highly professional finish to sealing and flashing work without the need for a professional builder.

The product consists of an aluminium-facing strip backed with a pressure-sensitive sealing compound, protected by a siliconised release paper that must be removed before use.

Flashband can withstand most weather conditions & can be used in a huge variety of places such as, Metal boxes, gutters, down-pipes, window frames, protruding pipes, cement box gutters, chimneys, pipe vents, ridging and capping, under window sills, boat leaks, just to name a few.

- Flashband bonds to a wide range of substrates forming a durable barrier, which is watertight and weatherproof
- Simple and easy to apply by pressing the tape into place by hand
- Various sizes available

SOLIGNUM

PROTECTION AGAINST TERMITES, WOOD BORERS & FUNGI

The Solignum range is a high performance brand of wood treatment products. Founded on over 120 years of tradition, the quality wood preservatives, termiticides, decorative coatings and ancillary products are widely trusted by professionals around the world to protect and condition their internal and external timbers.

Solignum products also offer ease of application and minimum maintenance, ensuring that the beauty of the timber is expertly preserved, with the addition of mould and mildew protection, as well as offering unsurpassed protection. Solignum also has the ability to penetrate the wood without the use of a primer and has become a firm favourite in the wood industry, as Solignum products gives the users the opportunity to easily apply two to three coats of protection by brush, spray or roller.

What is SOLIGNUM Colourless AZ?

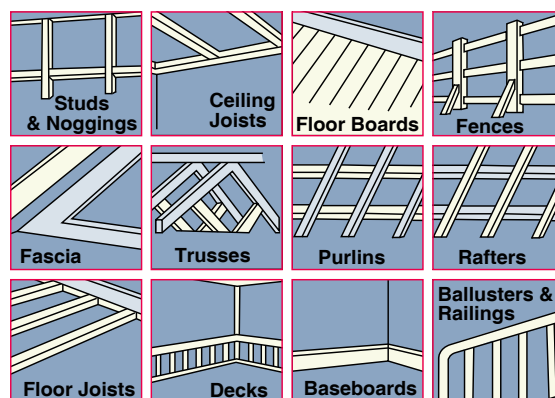

SOLIGNUM COLOURLESS AZ is the new wood preservative fluid from Solignum which penetrates into the wood and remains there as an active barrier against wood-rot, wood borers, termites and fungal decay. It kills fungi and wood borers and preserves against future attack. Timber treated with Solignum Colourless AZ retains its original appearance and can be painted or varnished over if desired. Colourless Solignum is not suitable for use in greenhouses or as a final weather-resistant finish.

- Supplied ready-for-use [Available in 1 & 5 Litre Cans]
- Easy to apply
- Penetrates wood rapidly
- Effective against wood-boring insects
- When dry, treated timber is not harmful to garden plants
- Due to the hazardous classification, the relevant pesticides licence will be required

BAG

STAINLESS STEEL TOWER BOLT

STAINLESS HARDWARE // FIXTURES & FITTINGS // BOLTS

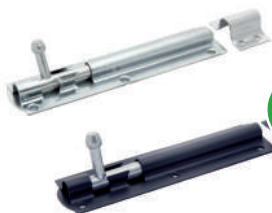

Can be used in various situations where security is required. Sizes range from 3" - 12" & are easy to install & use whilst offering a neat finish, complimenting internal fittings when used indoors.

Stainless steel is a highly popular material to use for bolts due to its excellent life cycle, environmentally friendly properties and recyclable qualities. Our range of stainless steel tower bolts offer strength, durability and corrosion protection, as well as a strong resistance to high heat and extremely cold temperatures.

Corrosion-resistant stainless steel is not corrosion proof & corrosion can occur if the products are installed or handled incorrectly. Keeping the surface clean & contaminant free is one the best ways of preventing any extraneous corrosion from occurring.

- Supplied as a barcoded pair in polybag with header card complete with fixing screws

Masonry Nails

MEDIUM

An oiled bathed hardened masonry nail, manufactured from Austempered high carbon steel. High hardness with extremely high flexibility for absolute safety (SEC predicate).

- Hardened and tempered
- Manufactured from Austempered High Carbon Steel
- Oil bathed
- Designed for use in brick, concrete and concrete blocks
- Versatile nail set by hammer; driving nails into masonry requires more force than driving into wood, so an ordinary hammer may not be adequate
- Various sizes available
- Supplied in outer box qty's

Electrical

Electrical products are an essential component in any commercial or residential building. We are proud to offer a range of functional wiring accessories, lighting, cable management products & electrical tools, helping to bring light to any indoor & outdoor space.

It is important to us that we can offer and provide the right electrical equipment to manage the task in hand safely. In turn, we have developed the following established brands which are brought to you by Cronex:

Curved Air - A range of fixed and portable fans to suit a variety of lifestyles & level of comfort.

Carl & Gilbert - A quality selection of popular wiring accessories such as lampholders, pattress boxes switches and sockets.

Argent - A select range of LED & Florescent indoor tube lights with accompanying Batten fittings, available in single & double variations in both 2ft & 4ft lengths.

Cronex Brand Partners // Bartoline

BARTOLINE

Bartoline Limited are Europe's leading manufacturer of decorating sundries for the home improvement industry, first established in 1876. Products include White Spirit and paint solvents, fillers, adhesives, sealants, sugar soaps, paint strippers, garden wood protectors, paraffin, BBQ lighting fluid and lantern oils, etc.

White Spirit

Top-quality solvent refined to meet the strict requirements of BS245. It is recommended for paint thinning as it will not affect the drying time of most oil-based paints. Also suitable for cleaning paint brushes and for general DIY cleaning purposes. White Spirit is the most popular and widely used of all paint solvents.

Teak Oil

Specially formulated to replace natural wood oils in hardwoods such as Oak and Teak, giving back the sheen that is lost after long periods of weathering. Contains a solvent carrier to aid penetration, is suitable for use either inside or out, and is easy to apply with a cloth or brush. A handy ready-to-use trigger spray is also available

Raw Linseed Oil

Intended to replace the natural oils that wood loses over time. It is suitable for all wood types and is very water resistant making it ideal for garden furniture. This popular traditional wood treatment has been used for generations and can be applied both internally and externally on unpolished surfaces. Hardwoods such as Oak and Teak should be treated alongside Bartoline Teak Oil.

Filler

Available in various sizes and forms such as powered, ready to use, exterior, wood, lightweight and instant. ideal for preparing surfaces by filling cracks and holes in walls, ceilings, around door frames and skirting boards. It has excellent adhesive properties to keep the filler firmly in position and sets hard enough to take nails or screws. It also provides a smooth white surface for overpainting or wallpapering, which does not shrink, and may be sanded when dry.

Wall Tile Grout

A fully waterproof cement-based powdered tile grouting compound suitable for use on all ceramic wall tiles and mosaics. Easily mixed to a smooth consistency, can be used on joints up to 3mm, and sets fast. May also be used externally if required and dries super white.
