

Applications

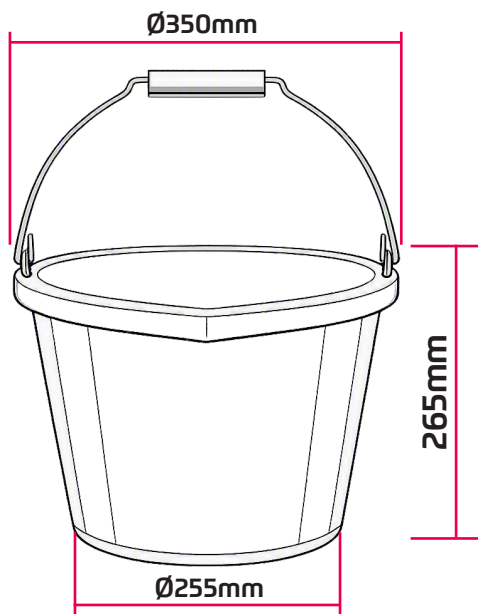

Invisible Heavy-Duty Builders Bucket is designed for demanding site environments where durability, stability and ease of handling are essential. Engineered for professional trades, it provides a robust, impact-resistant container for mixing, transporting and measuring construction materials while maintaining a clean, unobtrusive visual profile on site.

A staple for any project, has a 3 Gallon capacity with a pouring lip. Use them for mixing cement, carrying tools, or collecting debris.

Features

- ~ Heavy duty
- ~ 3 gallon [15 litres]
- ~ Galvanised gripper handle for safe transport when filled
- ~ Pouring lip helps reduce spills when transferring liquids or loose material
- ~ Suitable for both indoor and outdoor applications
- ~ The smooth interior and exterior surfaces allow for easy cleaning after use
